Skills

- **Languages**: C, C++, Python, Java
- **Python, Web & ML Technologies**: NumPy, Pandas, Matplotlib, Seaborn, Scikit-learn, HTML, CSS, JavaScript
- **Developer Tools:** Visual Studio Code, Git/GitHub
- **Core Competencies:** Data Structures & Algorithms, OOP, DBMS, Front-End Development
- **Soft Skills**: Problem Solving, Team Collaboration, Critical Thinking, Leadership

Projects

DevOps Project: CI/CD Pipeline for iPortfolio Website| Dec' 2025

- Designed and implemented an end-to-end CI/CD pipeline to automate build, test, and deployment of a personal portfolio website using DevOps best practices.
- Used Git and GitHub for version control, Jenkins for automation, and Maven for build and dependency management.
- Containerized the application using Docker and deployed it locally to ensure consistent environments and faster, reliable deployments.
  Tech: Git, GitHub, Jenkins, Maven, Linux, HTML, CSS

India Stock Market Analysis Dashboard| Dec' 2025

- Designed and developed an interactive Power BI dashboard to analyze Indian stock market performance, visualizing price trends, trading volume, market highs/lows, and sector-wise movements.
- Created calculated columns, measures, and KPIs using DAX to track key performance metrics and enable data-driven comparison across companies and time periods.
- Implemented dynamic slicers and filters for company-wise and time-based analysis, presenting insights through a clean, user-friendly dashboard to support better investment decision-making.
  Tech: Power BI, DAX, Excel/CSV

macOS Menu Bar Automation Tool (Copy, Type & OCR Bot) | Apr' 2025

- Designed and built a macOS menu bar utility that automates typing of user-defined and clipboard text via configu--rable hotkeys, significantly improving workflow efficiency.
- Implemented real-time clipboard monitoring, auto-typing, and OCR-based text extraction from screen-selected regions to enable text capture beyond standard copy operations.
- Leveraged background OCR processing to extract text from copy-protected environments, showcasing advanced automation, system-level control, and practical problem-solving on macOS.
  Tech: Python, rumps, pyautogui, OCR

Summer Training

Summer Training in Data Science (Techvanto) | Jul' 2025

- Completed structured summer training in Data Science with hands-on experience in Python, data analysis, and visualization using real-world datasets.
- Performed end-to-end data analysis including data cleaning, exploratory data analysis (EDA), statistical evaluation, and dashboard creation.
- **Project:** Built a **Home Price Estimator ( )** using machine learning regression techniques to predict property prices based on key features.
  Tech: Python, Pandas, NumPy, Power BI, Scikit-learn

Certificates

- GeeksforGeek– Complete Machine Learning & Data Science**|** Nov' 2025
- Springboard – Generative AI & Computational Theory | Aug'2025
- NPTEL – Cloud Computing IIT Kharagpur **|** May' 2025
- Coursera – Computer Networking & Computer Design Specializations **|** Oct' 2024

Extra-Curricular Activities

- **Code-A-Haunt – Web Development Hackathon:** Secured Top 10 Rank | Mar' 2024
- **Jankalyaan Seva Sansthan** - Environmental & Social Service Activities**|** Jul' 2024

Education

- **Lovely Professional University** Punjab, India
  Bachelor of Technology - *Computer Science and Engineering;* ***CGPA: 8.10*** *Since Aug' 2023*
- **Matrix Sr. Sec. School** Rajasthan, India
  Intermediate*;* ***Percentage: 93.2%*** *Apr' 2021 – Mar' 2022*
- **Tagore Public School** Rajasthan, India
  Matriculation; ***Percentage: 84.2%*** *Apr' 2019 – Mar' 2020*
